REMARKS

Claims 1-9 and 11-21 are pending in this application. Claims 1-9 stand rejected under 35 U.S.C. §112, first and second paragraph, as allegedly lacking enablement and definiteness. Although Applicants believe that claims 1-9 are both enabled and definite, in order to further prosecution, these claims have been canceled. The Office Action indicates that claims 11-21 would be allowable if rewritten in independent form including all the limitations of base claim 1. Accordingly, claim 11 has been amended in this manner.

The Office Action alleges that the application fails to comply with the requirements of 37 C.F.R. §1.821-1.825 as no submission of a computer readable form of the nucleic acid sequences has been submitted. Pursuant to Examiner's request, a computer readable form of these sequences is included herewith.

Applicants believe the foregoing constitutes a complete response to the Office Action and submit that all pending claims are in condition for ready allowance. An early Office Action to

ISIS-2447

that effect is, therefore, earnestly solicited.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Gregory L. Hillyer".
